

Post-study questionnaire (ESQ) — combined responses

Participant ID / question / answer, compiled from the 20 completed `post-study-questionnaire-*.docx` forms in `Dissertation/`. Answers were recorded in the third column of each section table as Y/N, normalised here to Yes/No.

Only answered items appear. Every form answered the same 14 items (A1-A5, B1-B5, C1, C2, C4, C5); item C3, all of Section D (D1-D6), Section E (E1 ranking, E2 multi-select) and Section F (F1-F4 open questions) were left blank on all 20 forms and are omitted.

Participants: 20 (1, 2, 3, 4, 6, 9, 10, 13, 16, 17, 20, 25, 26, 27, 30, 33, 41, 43, 51, 90). Total answers: 280.

Note: the sheet filed as 15-16 is recorded here under participant 16.

All responses

Participant ID	Item	Question	Answer
1	A1	When the effect was on, it was easier to keep my attention on the task in front of me.	Yes
1	A2	I found myself looking away from the task just as often with the effect on as off.	No
1	A3	The effect made it obvious where I was supposed to be looking.	Yes
1	A4	The effect made no real difference to how well I could concentrate.	Yes
1	A5	Things happening at the edges of my vision bothered me less when the effect was on.	No
1	B1	With the edges of my vision darkened or greyed out, I was worried I would miss something important.	Yes
1	B2	I still felt aware of what was going on around me when the effect was on.	Yes
1	B3	When something appeared off to the side, I felt I noticed it later than I would have without the effect.	No
1	B4	I felt comfortable not being able to see everything around me clearly.	No
1	B5	Being cut off from the edges of my vision made me uneasy or anxious.	No
1	C1	The effects were comfortable to look at for the length of each round.	Yes
1	C2	The boundary between the clear area and the altered edges was distracting in itself.	No
1	C4	The darkened or greyed-out areas caused me eye strain or visual discomfort.	No
1	C5	I stopped noticing the effect after a while — it faded into the background.	Yes
2	A1	When the effect was on, it was easier to keep my attention on the task in front of me.	Yes
2	A2	I found myself looking away from the task just as often with the effect on as off.	No
2	A3	The effect made it obvious where I was supposed to be looking.	Yes
2	A4	The effect made no real difference to how well I could concentrate.	No
2	A5	Things happening at the edges of my vision bothered me less when the effect was on.	Yes
2	B1	With the edges of my vision darkened or greyed out, I was worried I would miss something important.	Yes
2	B2	I still felt aware of what was going on around me when the effect was on.	Yes
2	B3	When something appeared off to the side, I felt I noticed it later than I would have without the effect.	Yes
2	B4	I felt comfortable not being able to see everything around me clearly.	No
2	B5	Being cut off from the edges of my vision made me uneasy or anxious.	No
2	C1	The effects were comfortable to look at for the length of each round.	Yes
2	C2	The boundary between the clear area and the altered edges was distracting in itself.	No
2	C4	The darkened or greyed-out areas caused me eye strain or visual discomfort.	No
2	C5	I stopped noticing the effect after a while — it faded into the background.	Yes

Participant ID	Item	Question	Answer
3	A1	When the effect was on, it was easier to keep my attention on the task in front of me.	Yes
3	A2	I found myself looking away from the task just as often with the effect on as off.	No
3	A3	The effect made it obvious where I was supposed to be looking.	Yes
3	A4	The effect made no real difference to how well I could concentrate.	No
3	A5	Things happening at the edges of my vision bothered me less when the effect was on.	Yes

Item key

- **A1** — When the effect was on, it was easier to keep my attention on the task in front of me.
- **A2** — I found myself looking away from the task just as often with the effect on as off.
- **A3** — The effect made it obvious where I was supposed to be looking.
- **A4** — The effect made no real difference to how well I could concentrate.
- **A5** — Things happening at the edges of my vision bothered me less when the effect was on.

- **B1** — With the edges of my vision darkened or greyed out, I was worried I would miss something important.
- **B2** — I still felt aware of what was going on around me when the effect was on.
- **B3** — When something appeared off to the side, I felt I noticed it later than I would have without the effect.
- **B4** — I felt comfortable not being able to see everything around me clearly.
- **B5** — Being cut off from the edges of my vision made me uneasy or anxious.
- **C1** — The effects were comfortable to look at for the length of each round.
- **C2** — The boundary between the clear area and the altered edges was distracting in itself.
- **C4** — The darkened or greyed-out areas caused me eye strain or visual discomfort.
- **C5** — I stopped noticing the effect after a while — it faded into the background.
